PROFILE

A motivated Full Stack Developer with a strong foundation in Node.js and React.js, complemented by proficiency in Python and Java. Experienced in building and integrating RESTful APIs and databases using Express.js, MongoDB, and MySQL. Committed to writing clean, scalable code and eager to contribute to dynamic teams in the full-stack development space.

WORK EXPERIENCE

Full Stack Developer | BXL - Barter Exchange of India (Oct 2024 – Present)

- Developed and implemented key user journey flows, including a complete user onboarding system and product listing features.
- Integrated Razorpay payment gateway to facilitate secure and efficient financial transactions within the platform.
- Engineered AWS S3 bucket solutions for image uploads; implemented functionality to store and retrieve image links from the database.
- Develop and maintain full-stack web applications using modern technologies including React.js, Node.js, and Express.js.
- Collaborate with cross-functional teams to define, design, and ship new features.

J.P. Morgan Software Engineering Virtual Experience | Forage (Sep 2024)

- Set up a local development environment by installing necessary files, tools, and dependencies.
- Fixed broken files in the repository to ensure the web application functioned correctly.
- Utilized JPMorgan Chase's open-source Perspective library to generate a live data feed graph for traders.

PROJECTS

BXLWorld Platform | bxiworld.com

- Developed a comprehensive barter exchange platform enabling businesses to trade goods and services.
- Implemented user authentication, product listing, search functionality, and transaction management systems.
- Built with modern web technologies to ensure scalability and responsive user experience.

BrandWorld E-commerce Platform | brandworld.co.in

- Created a full-featured e-commerce website with product catalog, shopping cart, and checkout functionality.
- Designed responsive UI components and optimized performance for enhanced user engagement.
- Integrated secure payment processing and order management systems.

VoucherBot Mobile Application | [Download APK](#)

- Developed a React Native mobile application for voucher and coupon management.
- Built and generated APK for Android distribution, ensuring smooth performance across devices.
- Implemented features for voucher creation, redemption tracking, and user account management.

SKILLS

Programming Languages: JavaScript, TypeScript, Python, Java, C

Frameworks & Libraries: Node.js, Express.js, React.js, React Native, Next.js, Tailwind CSS

Databases: MongoDB, MySQL

Cloud & Tools: AWS (S3), Git, Razorpay API

EDUCATION

Bachelor of Engineering in Computer Science

Saffrony Institute of Technology, Mehsana, Gujarat | Batch of 2021

CERTIFICATIONS

- JavaScript (Basic) – HackerRank
- Full Stack Web Development Course
